

UX/UI: Job description

Being UI/UX Designer in our startup having responsibilities include gathering user requirements, designing graphic elements and building navigation components. To be successful in this role, you should have experience with design software and wireframe tools. If you also have a portfolio of professional design projects that includes work with web/mobile applications, we'd like to meet you.

Ultimately, you'll create both functional and appealing features that address our clients' needs and help us grow our customer base.

Accountabilities:

- Gather and evaluate user requirements in collaboration with product managers and engineers
- Illustrate design ideas using storyboards, process flows and sitemaps
- Design graphic user interface elements, like menus, tabs and widgets
- Develop UI mockups and prototypes that clearly illustrate how sites function and look like
- Create original graphic designs (e.g. images, sketches and tables)
- Identify and troubleshoot UX problems (e.g. responsiveness)
- Conduct layout adjustments based on user feedback

Desired Qualifications:

- Proven work experience as a UI/UX Designer or similar role
- Up-to-date knowledge of design software like Adobe Illustrator and Photoshop
- Team spirit; strong communication skills
